

Integration Highlights

Key Technology Milestones

BATS Chi-X Europe is dedicated to Making Markets Better throughout Europe with cutting-edge technology, competitive pricing and exceptional customer service.

Below is the technology timeline for the migration of Chi-X Europe onto BATS Europe technology with key dates regarding connectivity and testing. The most current information can be found at www.batstrading.co.uk/integration.

Integration Highlights

- Both the Chi-X Europe and BATS Europe Integrated and Dark books will continue operating.
- Chi-X Europe Integrated and Dark books will migrate onto BATS Europe technology and remain located at the Equinix Slough datacentre (LD4).
- Both platforms will have secondary data centre environments at Equinix Park Royal datacentre (LD3).
- Participants will be able to access both trading platforms via a single network interface.
- BATS Chi-X Europe operates a point of presence (PoP) at Interxion, Hanbury Street and at Equinix Frankfurt (FR2) offering network connectivity to both platforms.
- To minimise development effort for Chi-X Europe Participants, a Chi-X Europe FIX compatibility mode will be made available on the new technology.
- Post integration, the available market data products will be BATS Europe TCP PITCH and BATS Europe Multicast PITCH.
- Post integration, the available order entry protocols will be BATS Europe FIX, Chi-X Europe FIX compatibility mode and BATS Europe Binary Order Entry (BOE).
